

I am a career educator with 43 years in the classroom. I have a BS in Mathematics from Southeastern Oklahoma State and an MS in Mathematics from the University of Arkansas, Fayetteville. I have taught mathematics from 6th grade through calculus. Most of my experience has been with middle school students including coaching basketball and football, time as a principal and 13 years as a school district Energy Conservation Manager.

I am a family man who has been happily married for 53 years with two beautiful daughters, six grandchildren, one great-grand baby and three dogs.

I enjoy serving my community through my church and spending as much time as possible on the golf course.

I look forward to working together this semester and I challenge you to serve others one-to-one or through community groups.
