

Vitae

Michael Dill has a Master of Science in Microbiology from the University of North Texas, and a Bachelor of Arts in History and Anthropology from the University of North Texas. He spent time as a petroleum microbiologist, an environmental microbiology laboratory director, an environmental consultant, an industrial hygienist, a pharmaceutical microbiology QA/QC director, and has taught at Grayson College since Fall 2009. Has done work for the U.S Department of Defense, British Aerospace Engineering, Bell Helicopters, DFW airport, the Federal Emergency Management Administration, University of Texas in Austin, and many school districts in the DFW area.

His hobbies include hunting, fishing, gardening, and cooking. He attended Grayson College after high school from fall 1990 to spring 1992, before transferring to UNT in Denton, Texas.

Professor Dill Currently Teaches Human Anatomy and Physiology and Microbiology for Non-majors at Grayson College.
