- Excellent communication skills
- Cooperative with colleagues.
- Encourages an education based on proficiency, life-long learning, student involvement and their success

EDUCATION

Master in Computer Science – University of Houston-Victoria, 2015
Master in Music – Moores School of Music, University of Houston, 2004

CERTIFICATIONS

CISCO CCNA (200-301) – In progress (estimated date of completion Spring 2020)

TEACHING EXPERIENCE

University of Houston-Victoria
January 2016-Present
Faculty at the Department of Computer Science.

Courses Taught
Software Engineering,
Computer Architecture,
Operating Systems,
Application design using GUIs (C#),
Client server computing,
Database Systems

Houston Community College
August 2005-Present
Faculty at the Department of Computer Science and Information Technology.

Courses Taught
Programming (C++),
Programming (Java),
Programming (C#),
Business Computer Applications, Introduction to Computers

Grayson College
August 2019-Present
Faculty at the Department of Computer Science.

Courses Taught
Programming (C++),
Programming (Java),

NON-TEACHING EXPERIENCE

Web Developer/Database Administrator (Independent Contractor)
October 2015-Present
Duties: Designing and developing websites/ Building and maintaining databases.
Projects: EAS Atelier Jewelry Company (www.easatelier.com)
　　　　　Music Academic website (www.music-fundamentals.com)

PROGRAMMING/NETWORKING/SOFTWARES EXPERTISE

Extensive knowledge and experience in teaching the following subjects:
- Business Computer Applications (Microsoft Word, Excel, Power Point, Access)
- Operating Systems Implementation and Design
- Internet/Web Page Programming and Development (ASP.NET and PHP)
- Extensible Markup Language (XML)
- Programming in C#, C++, Java, Visual Basic.NET, Python
- Parallel processing and Computer Architecture
- Computer Network Design
- Telecommunications and Networks
- Software Engineering and Development
- Database Systems Development and Database Theory and Design
- Server Administration (Linux, Windows Server 2003, 2008, 2012)
- Decision Support Systems
- Automata and Formal Languages
- Analysis and Design of Algorithms
- Information Systems Security
- Web Mining and Information Retrieval

TEACHING AWARDS/ PROFESSIONAL ROLES

- Scholarship from Hellenic Professors Society of Texas (2002)
- Has been awarded by HCC's Dean for outstanding student evaluations
- Project manager in a developing team for developing a scheduling appointment App ("Tutor-A-Gator") for University of Houston downtown (2013)
