**Course Grading Policy**

The grading policy for the RN to BSN program follows that of the college for the letter grading system and grade point determination. This policy is found in the Grayson College Catalog. RN to BSN course grades are assigned as follows:

Letter Grade	Interpretation	Numerical Grade	Grade Points/Semester Hour
A	Excellent	89.50-100	4
B	Good	79.50-89.49	3

C	Satisfactory	74.50-79.49	2
D	Failing	64.50-74.49	1
F	Failing	64.49 and below	0

According to college policy a letter grade of “D” is considered unsatisfactory in a student’s major field of study and generally does not transfer. Therefore, a grade of “C” or better is necessary in all RN to BSN courses for satisfactory completion of each level and progression to the next nursing course.

## **ASSIGNMENT DESCRIPTIONS**

**\*Please note: Rubrics for all assessments are located at the end of this syllabus.**

### **Computer Hardware and Software Requirements**

It is the student's responsibility to have access to a computer with a reliable Internet connection and a computer that is compliant with recommended browsers and settings in order to effectively utilize Canvas. In order for Canvas to function properly, your computer must have the latest updates and plugins. All written assignments are to be submitted in a Word document, unless specified in another format, i.e. PowerPoint, PDF, etc. Refer to the student handbook or the course module on *Required Technology and Skills* for details on computer requirements.

### Attendance

The RN to BSN program adheres to the Grayson College Student Handbook attendance policy. Should absences occur which do not allow for full evaluation of student performance (quality and consistency) faculty will be unable to assign a passing grade. In addition, the following policies are specific to the theory course.

1. Regular attendance is expected for all classes.
2. Attendance is verified within Canvas for all courses.
3. Students **must** notify the faculty in case of an absence during test times at least one hour prior to the scheduled test time.

---

## **STUDENT RESPONSIBILITY & ATTENDANCE**

Attendance online is strongly encouraged. You will miss a deeper understanding of the materials if you are not participating. There are readings that you will have to complete to be able to adequately participate in individual and group assignments. In order to complete this course successfully, you do have to participate in all course activities i.e. homework, discussion board, course projects, self-reflections, etc. Students are expected to engage in course activities and submit work by due dates and times. The hope is that students will make substantive contributions that reflect integration of assigned materials as well as any outside readings as appropriate. Scholarly contribution is an expectation. For planning purposes, this class will probably require a minimum of 6-9 study hours per week on average.

---

## **COMMUNICATION**

Faculty will respond to email and/or telephone messages within 24 hours during working hours Monday through Friday. Weekend messages will not be returned until Monday.

*Written communication via Canvas:* It is an expectation of this class that you use formal writing skills giving appropriate credit to the source for your ideas. Follow APA (2010) 6<sup>th</sup> edition (2<sup>nd</sup> Printing or higher only) guidelines for referencing.

*Written communication via email:* All private communication will be done exclusively through your Viking email address. Check frequently for announcements and policy changes.

*Virtual communication:* Office hours and/or advising may be done with the assistance of the telephone, online platform, etc.

### **Use Good "Netiquette":**

- Check the discussion frequently and respond appropriately and on subject.
- Focus on one subject per message and use pertinent subject titles.
- Capitalize words only to highlight a point or for titles. Otherwise, capitalizing is generally viewed as SHOUTING!
- Be professional and careful with your interaction. Proper address for faculty is by formal title such as Dr. or Ms. /Mr. Jones unless invited by faculty to use a less formal approach.
- Cite all quotes, references, and sources.
- When posting a long message, it is generally considered courteous to warn readers at the beginning of the message that it is a lengthy post.
- It is extremely rude to forward someone else's messages without their permission.
- It is fine to use humor, but use it carefully. The absence of face-to-face cues can cause humor to be misinterpreted as criticism or flaming (angry, antagonistic criticism). Feel free to use emoticons such as J or :) to let others know you are being humorous.

(The "netiquette" guidelines were adapted from Arlene H. Rinald's article, The Net User Guidelines and Netiquette, Florida Atlantic University, 1994, available from Netcom)

---

## **ASSIGNMENT SUBMISSION AND FEEDBACK**

In this class, all assignments need to be submitted through the Assignments link in the Canvas course site. This is for grading purposes. Issues with technology use arise from time to time. If a technology issue does occur regarding an assignment submission, email me at andersm@grayson.edu and attach a copy of what you are trying to submit. This lets your faculty know you completed the assignment on time and are just having problems with the online submission feature in Canvas. Once the problem is resolved, submit your assignment through the appropriate link. This process will document the problem and establish a timeline. Be sure to keep a backup of all work and save your work frequently!

I will make every effort to provide feedback and grade submissions within one week of the due date. If your assignment is submitted late, the feedback timeframe does not apply. I will get to it as soon as possible, but it may take longer than one week.

## **LATE WORK OR MISSED ASSESSMENTS POLICY**

The course is set up on weekly modules. The week begins on Monday and ends on Sunday. The Final week (week 8) ends on Thursday. Assignment due dates are shown on the calendar/schedule or posted within Canvas. **Five percentage points per day will be deducted for assignments submitted late. Late assignments will not be accepted after five days.**

---

## **Student Conduct & Discipline**

Refer to the RN to BSN Student Handbook for policies

---

## **Academic Integrity**

Refer to the RN to BSN Student Handbook for specific policies

The faculty expects from its students a high level of responsibility and academic honesty. Because the value of an academic degree depends upon the absolute integrity of the work done by the student for that degree, it is imperative that a student demonstrate a high standard of individual honor in his or her scholastic work.

Scholastic dishonesty includes but is not limited to cheating, plagiarism, collusion, and the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give unfair advantage to a student or the attempt to commit such acts. Plagiarism, especially from the web, from portions of papers for other classes, and from any other source is unacceptable and will be dealt with under the college's policy on plagiarism (see GC Student Handbook for details). Grayson College subscribes to turnitin.com, which allows faculty to search the web and identify plagiarized material.

Plagiarism is a form of scholastic dishonesty involving the theft of or fraudulent representation of someone else's ideas or words as the student's original work. Plagiarism can be intentional/deliberate or unintentional/accidental. Unintentional/Accidental plagiarism may include minor instances where an attempt to acknowledge the source exists but is incorrect or insufficient. Deliberate/Intentional plagiarism violates a student's academic integrity and exists in the following forms:

- Turning in someone else's work as the student's own (such as buying a paper and submitting it, exchanging papers or collaborating on a paper with someone else without permission, or paying someone else to write or translate a paper)
- Recycling in whole or in part previously submitted or published work or concurrently submitting the same written work where the expectation for current original work exists, including agreeing to write or sell one's own work to someone else
- Quoting or copy/pasting phrases of three words or more from someone else without citation, • Paraphrasing ideas without citation or paraphrasing incompletely, with or without correct citation, where the material too closely matches the wording or structure of the original
- Submitting an assignment with a majority of quoted or paraphrased material from other sources
- Copying images or media and inserting them into a presentation or video without citation,
- Using copyrighted soundtracks or video and inserting them into a presentation or video without citation
- Giving incorrect or nonexistent source information or inventing source information
- Performing a copyrighted piece of music in a public setting without permission
- Composing music based heavily on someone else's musical composition.

---

## **Student Responsibility**

You have already made the decision to go to college; now the follow-up decisions on whether to commit to doing the work could very well determine whether you end up working at a good paying job in a field you enjoy or working at minimum wage for the rest of your life. Education involves a partnership that requires both students and instructors to do their parts. By entering into this partnership, you have a responsibility to show up for class, do the assignments and reading, be engaged and pay attention in class, follow directions, and put your best effort into it. You will get out of your experience here exactly what you put into it – nothing more and nothing less.
